Louisville Races,

At this season of the year when Nature is making a supreme effort to purge the system of the impurities and poisons that have collected during the winter months a vigorous and healthy appetite is needed to sustain the body while this purifying process is going on, but this much desired helpmate is sometimes lacking, for even the best regulated appetite is apt to go wrong now and become unreliable and fickle, and has to be humored and coaxed to bring it back to that condition where all food is relished and eating becomes a pleasure. A hungry appetite does not have to be feasted and feted, nor tempted with dainty viands and delicacies. The plainest fare will satisfy its cravings, while a sickly and defective appetite will turn with loathing and disgust from the most sumptuous banquet.

Various methods are adopted to coax back the lost appetite. The Liver is prodded with pills and the Stomach drenched with cheap tonics and bitters, but these only produce a morbid or variable appetite; ravenous one day and sickening at the bare thought of food the next.

STATE OF GEORGIA.

EXECUTIVE OFFICE, Atlanta, May 8, 1899. I have used S. S., and can recommend it

as unquestionably a good blood purifier, and I am sure the best tonic I ever used. For many years my digestion was bad, but the occasional use of a bottle of S. S. S. has entirely cured me of this malady, and I now eat with perfect impunity anything set before me.

A. D. CANDLER.

S. S. S. is the ideal Spring Tonic and coaxes an appetite when nothing else can. It is not only a perfect appetizer and exhilarating GEORGIA'S GOVERNOR. tonic, but contains also the properties needful for the purification of the blood, and giving that richness and tone, without which perfect digestion and assimilation of food is impossible, and the result is dyspepsia with all its distressing symptoms, capricious appetite, inflammation, fullness and heaviness in stomach, nausea, dizziness, and worst of all insomnia and nervousness. S. S. S. in thus purifying and invigorating

the blood renders the greatest assistance to Nature, for with healthy, nutritious blood circulating through the system it is fully prepared for the changes which take place during the Spring. If

there are any defects or weak spots in the constitution they are apt to develop as warm weather comes on, and diseases that have lain dormant all Winter come to the surface. To prevent this S. S. S. should be begun at once, so that the germs and seeds of disease may be destroyed, and the poisons and acids in the blood antidoted and neutralized while in a torpid or inactive state, then with strong, healthy blood and a free and active circulation the machinery of life moves on

with vigor and regularity, and not only a good appetite is assured, but sound digestion and refreshing sleep. S. S. S. bert Champion, the Frenchman, at Charles river park tonight, after a very exciting race, which, up to the twenty-first mile, promised to go to Bobby Walthour of Atlanta.

On the Retired List.

Washington, May 10—Generals Snyder and William Auman, recently appointed brigadier generals, were piaced on the B. Y. A., did good appetite is the best remedy for that "fagged out and semi-invalid condition" so common at this season of the year, and the benefits derived from its use are real and permanent. In S. S. S. Nature has provided the best blood purifier and safest tonic. It contains no minerals whatever, but is guaranteed purely vegetable.
